The Board has continued to be successful in resolution of complaints. The Board is very active in the Alabama Opioid Overdose and Addiction Council. The Board monitors prescribing habits of podiatrists and does not tolerate over prescribing opioids to patients.

The Board and industry continue to discuss the change in scope of practice to allow a podiatrist to practice above the foot to include the ankle area. Alabama is 1 of 2 states in the United States that does not allow its licensees this privilege. This is extremely important with recruiting new licensees to come to Alabama to practice Podiatry. Most graduates choose their practice locations based on this one privilege. We are not growing in licensees and do see this as a significant issue in the near future. The Alabama Podiatric Medical Association is introducing legislation this year to expand the scope of practice with the Boards assistance, we both hope it is successful during the 2022 Regular Legislative Session.

The Board continues to operate through a Special Fund Account with a balance of \$8,115.56 as of September 30, 2021. Board revenue consists of license fees, license renewal fees, examination fees, administrative fines and/or penalties. The Board currently has 167 licensed podiatrists.

Please do not hesitate to contact the Board office should you need any additional information or have any questions.

Sincerely,

Keith E. Warren
